### ABOUT US

**Attraktion!** is a specialized group of companies which blends a unique combination of advanced skills in order to create exceptional experience products for the Entertainment and Leisure Market.

### ROLE DESCRIPTION

The CG Supervisor will bring expertise to both the technical and artistic aspects of the project while working in collaboration with the various department supervisors. He/she must therefore understand and interpret the Director's intentions and also be conscious of the project's budget constraints.

### RESPONSIBILITIES

- Work with the team to produce creative concepts and technical solutions for the project.
- Develop workflow procedures to complete the project within allotted timelines and budget.
- Supervise day-to-day activities of the team to ensure high animation quality and productivity.
- Address technical challenges, client concerns, and team issues promptly to prevent production pitfalls and delays.
- Stay current with industry trends and latest technologies and apply them to improve animation production.
- Maintain departmental policies and procedures to improve operational efficiency.
- Maintain technical manuals and guidelines for the team.
- Coordinate with HR/Recruiting team in interviewing and hiring candidates.
- Develop department goals to improve operational and performance efficiencies
- Review deliverables and provide feedback with any concerns or suggestions

### SKILLS

- 5 years of work experience as a supervisor in a film/TV
- Extensive knowledge of Maya.
- A thorough understanding of the VFX process and excellent technical understanding of CG pipelines
- Strong problems solving skills.
- Excellent organizational, communication, and project management skills
- Proven team leadership, strong motivational skills, and willingness to share knowledge
- English speaker.
